**INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL
STATEMENTS AND SUPPLEMENTAL INFORMATION**

Board of Trustees
Blinn College
Brenham, Texas

We have audited the accompanying financial statements of Blinn College, (the College) as of and for the years ended August 31, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Blinn College as of August 31, 2011 and 2010, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2011, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12 be presented to supplement the

STATEMENTS AND SUPPLEMENTAL INFORMATION (CONTINUED)**

financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying statistical supplements, as described in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards and schedule of expenditures of state awards are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the State of Texas Single Audit Circular, and are also not a required part of the financial statements. The schedule of expenditures of federal awards and the schedule of expenditures of state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The statistical supplements (marked "unaudited") have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of Blinn College's (the College) annual financial statements provide an overview of the College's financial performance for the fiscal years ended August 31, 2011 and 2010. Management's discussion and analysis is based on management's knowledge of current activities, resultant changes and known facts; therefore, it should be read in conjunction with the accompanying basic financial statements and associated notes. The basic financial statements, notes and this discussion are the responsibility of management.

Financial Highlights and Significant Activities for 2011

- Net assets increased by \$1.4 million
- Tuition and fee revenue (before allowances and discounts) increased by \$2.7 million

The College's overall net assets increased approximately \$1.4 million, or 2%, which reflects the College's continued commitment to invest in capital improvements. An increase in tuition and fees charged and student enrollment led to an increase in total tuition and fee revenue (before allowances and discounts) of approximately \$2.7 million, or 7%.

Total operating revenues increased approximately \$200,000. This increase is primarily attributable to the increase in tuition and fees discussed above and increased revenues from auxiliary enterprises offset by a \$2.8 million increase in scholarship allowances and discounts. Operating expenses increased by \$6.4 million, or 8%, as a result of increases in salary and benefit costs, scholarships and fellowships awarded and other operating expense increases.

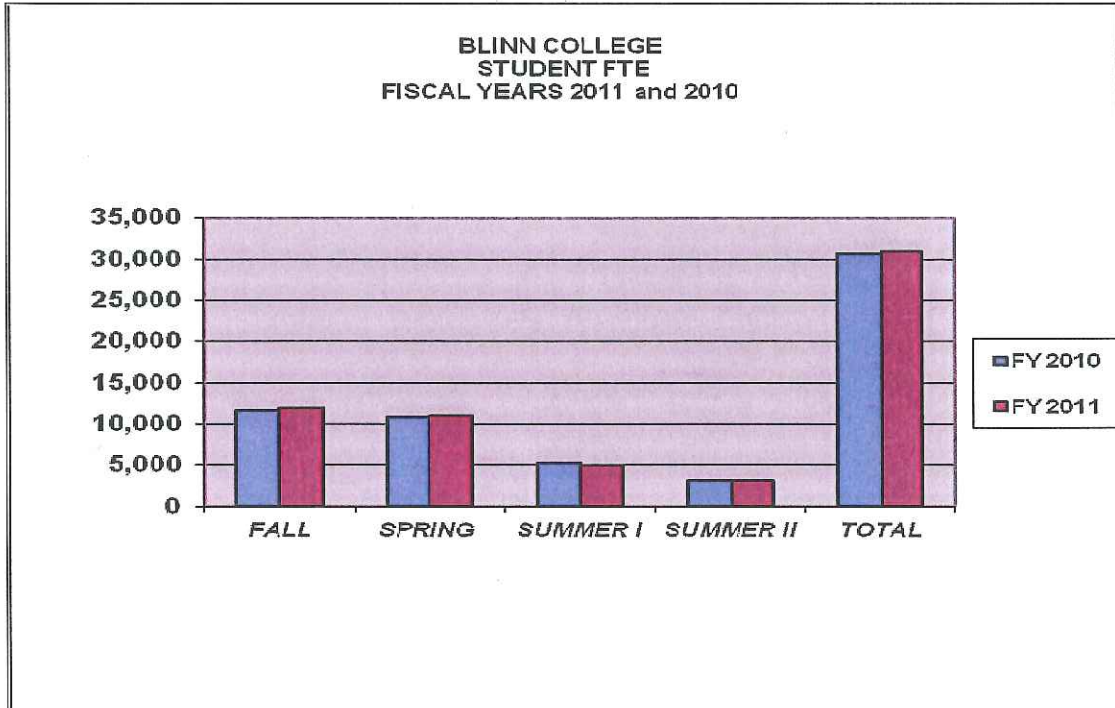

Financial Highlights and Significant Activities for 2010

- Net assets increased by \$5.5 million
- Tuition and fee revenue (before allowances and discounts) increased by \$3.6 million

The College's overall net assets increased approximately \$5.5 million, or 7%, which reflects the College's continued commitment to invest in capital improvements. Although the College's Board of Trustees did not raise tuition and fees in 2010, an increase in student enrollment led to an increase in total tuition and fee revenue (before allowances and discounts) of approximately \$3.6 million, or 10%.

Total operating revenues increased approximately \$1.9 million, or 5%. This increase is primarily attributable to the increase in tuition and fees discussed above, an increase in State grants and contracts and increased commissions on bookstore sales. Operating expenses increased by \$9.2 million, or 13%, as a result of increases in salary and benefit costs, scholarships and fellowships awarded and other operating expense increases.

Below is a breakdown of the College's full time equivalency (FTE) enrollment by term for fiscal years 2011 and 2010:

Below is a two-year comparison for student enrollment by campus:

Overview of the Basic Financial Statements

The College qualifies as a special purpose government entity, which is engaged in business-type activities. The basic financial statements are prepared on that basis and their form mirrors the statements utilized by organizations in the private sector of the economy. The basic financial statements include a statement of net assets, statement of revenues, expenses and changes in net assets, statement of cash flows and notes to the basic financial statements.

Financial statements for the College's component unit, Blinn College Foundation, Inc. (the Foundation) are issued independent to those of the College but are presented with the College's basic financial statements.

The statement of net assets' focus is to report the total net resources available to finance future services. The statement presents all assets and liabilities of the College, and the change in net assets as of the end of the fiscal year. The statement is prepared under the accrual basis of accounting, in which revenues and assets are recognized when earned, and expenses and liabilities are recognized when incurred regardless of when cash is received or paid. The difference between total assets and total liabilities is net assets, which is one indicator of the financial condition of the College when considered with other factors such as changes in enrollment, contact hours, student retention and other non-financial information. The statement of net assets is useful in determining the assets available to continue operations, as well as how much the College owes vendors, bondholders and other entities at the end of the year.

The statement of revenues, expenses and changes in net assets denotes the results of business activities as revenues earned and expenses incurred over the course of the fiscal year. The statement also provides information regarding how the net assets of the College changed during the year. The statement is divided into the operating results of the College as well as the non-operating revenues and expenses. Operating revenues are primarily those that result from instruction, the operation of the College's auxiliary services (student housing, cafeteria, athletics, etc.) and Federal and State grants. State appropriations, property tax receipts, Federal revenues (Title IV funds), and interest income, while budgeted for operations, are considered to be non-operating revenues. Depreciation is shown as an operating expense in accordance with generally accepted accounting principles.

The statement of cash flows presents the information related to cash inflows and cash outflows summarized by operating, financing and investing activities. This statement presents cash receipt and cash disbursement information without consideration of the earning event. This information is crucial to determining the College's fiscal viability and its ability to meet financial obligations as they mature and helps users assess the College's ability to generate net cash flows, its ability to meet its obligations as they come due, and its need for external financing.

The notes to the basic financial statements provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes also present information about the College's accounting policies, significant account balances and activities, and contingencies.

Statement of Net Assets

The following is prepared from the College's Statements of Net Assets and provides a summary of its assets, liabilities and net assets for the years ended August 31:

	2011	2010	Increase (Decrease) 2011-2010	2009	Increase (Decrease) 2010-2009
Assets:					
Current assets	\$ 34,648,000	\$ 35,525,000	\$ (877,000)	\$ 33,832,000	\$ 1,693,000
Capital assets, net of depreciation	104,561,000	85,832,000	18,729,000	82,100,000	3,732,000
Noncurrent assets	21,172,000	33,111,000	(11,939,000)	15,293,000	17,818,000
Total Assets	160,381,000	154,468,000	5,913,000	131,225,000	23,243,000
Liabilities:

Noncurrent liabilities	40,888,000	43,901,000	(3,013,000)	26,759,000	17,142,000
Total liabilities	77,557,000	73,067,000	4,490,000	55,314,000	17,753,000
Net Assets:					
Investments in capital assets net of related debt	60,318,000	56,686,000	3,632,000	51,934,000	4,752,000
Restricted	14,449,000	15,339,000	(890,000)	15,499,000	(160,000)
Unrestricted	8,057,000	9,377,000	(1,320,000)	8,478,000	899,000
Total net assets	\$ 82,824,000	\$ 81,402,000	\$ 1,422,000	\$ 75,911,000	\$ 5,491,000

At August 31, 2011, current assets included \$19.2 million of cash and cash equivalents and \$15.6 million in student receivables related primarily to the fall 2011 semester. The decrease in current assets is due primary to a \$4 million decrease in cash and cash equivalents offset by a \$3.3 million increase in accounts receivables. The cash decrease was attributable to increased capital asset spending; receivables increased due to tuition and general fee increases and increased enrollment. The increase in current assets in 2010 was due primarily to increased enrollment.

In fiscal year 2011, the College had capital asset additions of approximately \$21.2 million, including \$10.2 million for a new dormitory, \$5.1 million for a new Agricultural complex, \$2 million for other Brenham Campus capital projects, \$2.6 million for leasehold improvements and equipment for the Health Science Center facility and classroom expansion and office remodeling on the Bryan Campus; offsetting this was the annual depreciation charge on completed projects. During fiscal year 2010, the College had capital asset additions of approximately \$6.1 million, including \$1.4 million for Banner student services software, \$1.1 million for classroom expansion and office remodeling on the Bryan Campus, \$1 million for a new dormitory on the Brenham Campus, \$1 million for other Brenham Campus capital projects and \$500,000 for the Brenham Technical Education Center Building, offsetting this was the annual depreciation charge on completed projects.

The College's noncurrent assets include funds restricted for endowments, construction, debt service and other investments. Noncurrent assets decreased \$12 million in 2011 due to the increased capital asset spending discussed above. The increase in 2010 of \$17.8 million was due primarily to the investment of the unexpended proceeds from the Series 2010 Bonds (discussed below) in US Federal Agency notes, which bear a higher interest return.

Current liabilities increased \$7.5 million and \$611,000 in fiscal year 2011 and 2010, respectively, due to an increase in deferred tuition, fees and housing charges of \$4.2 million and \$1.4 million, respectively and a \$2.7 million increase in accounts payable in fiscal year 2011. The fiscal 2011 accounts payable increase is primarily attributable to the increased capital asset addition activity discussed above. The increase in deferred tuition, fees and housing charges is due to tuition increases, enrollment increases and the new dormitory put into service for the fall 2011 semester.

Noncurrent liabilities consist of future bond payments. During fiscal 2011, the College issued Combined Fee Revenue Refunding Bonds, Series 2011. The proceeds from the issue (\$6,925,000) were used to refund a portion of existing bond issues for debt service savings and to pay the costs of the bond issuance. During fiscal 2010, the College issued Combined Fee Revenue Bonds, Series 2010. The proceeds from the issue (\$20,155,000) were used for the capital projects discussed above.

At August 31, 2011 and 2010, total net assets were \$83 million and \$81 million, respectively. Net assets have increased over the two-year period. The College has an unrestricted net asset balance of approximately \$8 million at August 31, 2011, which is maintained as a contingency reserve. Restricted net assets include endowment funds of approximately \$10 million and required debt service reserves of \$4.7 million. The investment in capital assets, net of related debt increased \$3.6 million in 2011, reflecting the capital addition activity discussed above. The College's financial position remains strong with adequate liquid assets and a reasonable level of unrestricted net assets.

Statement of Revenues, Expenses and Changes in Net Assets:

Total operating revenues increased \$200,000 from 2010 due to an increase in tuition and fees of \$2.7 million due to tuition and fees charged and enrollment increases and \$500,000 increase in revenues from auxiliary enterprises. Offsetting this was a \$2.8 million increase in scholarship allowances and discounts; primarily Federal Title IV grants funds.

Total operating revenues increased \$1.9 million from 2009 due to an increase in net tuition and fees of \$896,000 as a result of increased enrollment, increase in State grants and contracts of \$406,000 due to increased Skills Development grants, increase in Texas Grant and the new Jobs & Education for Texas program and a \$191,000 increase in commissions on bookstore sales.

Operating expenses consist mainly of personnel costs, which were 61% and 62% of total operating expenses in fiscal 2011 and 2010, respectively. Below is a table of operating expenses for the fiscal years ended August 31 (rounded to the nearest thousand):

	<u>2011</u>	<u>2010</u>	<u>Increase (Decrease) 2011-2010</u>	<u>2009</u>	<u>Increase (Decrease) 2010-2009</u>

Total operating expenses increased \$6.4 million from 2010 due primarily to increased payroll and benefits of \$3.8 million, increase in scholarships and fellowships awarded of \$1.5 million and other miscellaneous expense increases.

Total operating expenses increased \$9.2 million from 2009 due primarily to increased payroll and benefits of \$4.0 million, increase in scholarships and fellowships awarded of \$3.4 million and other miscellaneous expense increases.

Total non-operating revenues increased \$2.2 million from 2010 due primarily to a \$3 million increase in Federal non-operating revenues (Title IV funds), offset by an \$800,000 decrease in State appropriations.

Total non-operating revenues increased \$7.7 million from 2009 due primarily to a \$5.6 million increase in Federal non-operating revenues (Title IV funds) and a \$1.9 million increase in State appropriations.

Statement of Cash Flow

The following chart summarizes the statements of cash flows (rounded to the nearest thousand) for the fiscal years ended August 31:

Net increase (decrease) in cash and cash equivalents	(3,972,000)	(3,296,000)	(676,000)	(1,957,000)	(1,339,000)
Cash and cash equivalents - beginning of year	23,583,000	26,879,000	(3,296,000)	28,836,000	(1,957,000)
Cash and cash equivalents - end of year	<u>\$ 19,611,000</u>	<u>\$ 23,583,000</u>	<u>\$ (3,972,000)</u>	<u>\$ 26,879,000</u>	<u>\$ (3,296,000)</u>

The College's cash flow from operating activities will normally reflect a decrease as the College relies on State appropriations to fund operating activities. State appropriations are shown as non-capital financing activities in accordance with the Texas Higher Education Coordinating Board. Cash inflows consist primarily of cash receipts from tuition and fees while cash outflows primarily consist of cash disbursements for wages, benefits, supplies and scholarships.

The increase in cash used in operations in 2011 is primarily due to an increase in salaries and benefits paid to employees of \$3.8 million, increase in the payment for scholarships of \$1.5 million offset by a decrease in the payment to suppliers for goods and services of \$2.4 million and a \$1.2 million increase in receipts from students and other customers.

The increase in cash used in operations in 2010 is primarily due to an increase in salaries and benefits paid to employees of \$3.7 million, increase in payment to suppliers for goods and services of \$3.5 million, increase in the payment for scholarships \$3.4 million offset by a \$1.9 million increase in receipts from students and other customers.

In addition to State appropriations, non-capital financing activities include property tax receipts, non-operating Federal revenue (Title IV funds) and additions to permanent endowments. The increase in non-capital financing activities from 2010 is due to a \$3 million increase in non-operating Federal revenue (Title IV funds) and \$300,000 increase in gifts offset by a decrease in State appropriations. The increase in non-capital financing activities from 2009 is due to a \$5.2 million increase in non-operating Federal revenue (Title IV funds) and a \$2.1 million increase in receipts from State appropriations.

Variations in cash used for capital and related financing activities are dependent on the College's issuance and payment of long-term debt and capital acquisitions. During fiscal 2011, the College issued Combined Fee Revenue Refunding Bonds, Series 2011. The proceeds from the issue (\$6,925,000) were used to refund a portion of existing bond issues for debt service savings and to pay the costs of the bond issuance. During fiscal 2010, the College issued Combined Fee Revenue Bonds, Series 2010. The proceeds from the issue (\$20,155,000) were used for various capital projects on the Brenham and Bryan Campuses. In 2011 and 2010, the College spent \$21.2 million and \$6.1 million in capital acquisitions and \$4.3 million on scheduled debt service payments, respectively.

The increase in cash provided by investing activities in 2011 is due primarily to the sales and maturities of investments to fund the capital asset spending discussed above. The decrease in 2010 is due to the investment of the unexpended proceeds of the Series 2010 bond issue discussed above.

Capital Assets and Debt Administration

In fiscal year 2011, the College had capital asset additions of approximately \$21.2 million, including \$10.2 million for a new dormitory, \$5.1 million for a new Agricultural complex, \$2 million for other Brenham Campus capital projects, \$2.6 million for leasehold improvements and equipment for the Health Science Center facility and classroom expansion and office remodeling on the Bryan Campus.

During fiscal year 2010, the College had capital asset additions of approximately \$6.1 million, including \$1.4 million for Banner student services software, \$1.1 million for classroom expansion and office remodeling on the Bryan Campus, \$1 million for a new dormitory on the Brenham Campus, \$1 million for other Brenham Campus capital projects and \$500,000 for the Brenham Technical Education Center Building.

During fiscal 2011, the College issued Combined Fee Revenue Refunding Bonds, Series 2011. The proceeds from the issue (\$6,925,000) were used to refund a portion of existing bond issues for debt service savings and to pay the costs of the bond issuance.

During fiscal 2010, the College issued Combined Fee Revenue Bonds, Series 2010. The proceeds from the issue (\$20,155,000) will be used for various capital projects on the Brenham and Bryan Campuses.

Future Considerations

Unlike most community colleges in Texas, Blinn College has begun the 2011-2012 fiscal year with another record student enrollment. Overall, the college experienced 2.7% student growth, but the Brenham campus itself grew by almost 16%. This increase is undoubtedly the result of the new construction projects completed during the past 12 months: a new Agriculture facility, an expanded Band Hall, and perhaps most important, a new 300-bed residence hall. While this rapid growth has strained resources on the Brenham campus, the growth is being absorbed into the organization.

On the Bryan campus, facilities have been expanded with the recent move of Allied Health programs into the Health Science Center facility in west Bryan. Not only does the new facility provide room for growth for Allied Health, but it also created room for growth on the Villa Maria campus as well. The most pressing need on the Bryan campus is now additional parking. A new parking lot is planned for the current fiscal year and should enhance the ability to further increase offerings on the Villa Maria campus.

BLINN COLLEGE
Notes to Financial Statements
August 31, 2011 and 2010

1. Reporting Entity

Blinn College (the College) was established in 1883, in accordance with the laws of the State of Texas, to serve the educational needs of Washington County and the thirteen counties in the service area. The College operates campuses in the cities of Brenham, Bryan, Schulenburg and Sealy, Texas. The College is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*. While the College receives funding from local, State of Texas (the State), and Federal sources, and must comply with the spending, reporting, and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units – An Amendment of GASB Statement No. 14*, gives guidance in determining whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government. It requires reporting as a component unit if the organization raises and holds economic resources for the direct benefit of the governmental unit and the component unit is significant compared to the primary government. GASB Statement No. 39 has been applied as required in the preparation of these financial statements and no component unit information is required to be included.

2. Summary of Significant Accounting Policies

Reporting Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's (THECB) Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The College applies all applicable GASB pronouncements and all applicable Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, unless they conflict or contradict GASB pronouncements. The College has elected not to apply FASB guidance issued subsequent to November 30, 1989, unless specifically adopted by the GASB. The College is reported as a special-purpose government engaged in business-type activities.

Tuition Discounting

Texas Public Education Grants - Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG) is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act (HEA) Program Funds - Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as restricted revenue. When the student is awarded and uses these funds for tuition and fees, the amount is recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

BLINN COLLEGE
Notes to Financial Statements
August 31, 2011 and 2010

Other Tuition Discounts - The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amount is recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Budgetary Data

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The Board of Trustees has designated public funds investment pools to be cash equivalents as the investments are redeemable on demand.

Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

Inventories

Inventories consist of consumable office and physical plant supplies and bookstore stock. Inventories are valued at cost under the first-in first-out method and are charged to expense as consumed.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation. The College's capitalization policies include real or business personal property with a value equal to or greater than \$5,000 and an estimated useful life in excess of one year. Renovations of \$100,000 to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred. The College reports depreciation under a single-line item as a business-type unit. Depreciation is computed using the straight-line method over the following estimated useful lives of the assets:

BLINN COLLEGE
Notes to Financial Statements
August 31, 2011 and 2010

Buildings	50 years
Land improvements	20 years
Library books	15 years
Furniture, equipment and vehicles	5-10 years
Computer systems	5 years

Museum Collections

In accordance with guidance issued by the Texas Comptroller of Public Accounts, collections located at the Star of the Republic Museum held for public exhibition are capitalized but not depreciated. Collections are valued at their historical cost or estimated fair value at date of donation.

Deferred Revenues

Tuition, fees and housing charges of \$25,331,717 and \$21,096,363 and federal, state and local grants of \$65,540 and \$19,882 have been reported as deferred revenues at August 31, 2011 and 2010, respectively.

Operating and Non-Operating Revenue and Expense Policy

The college distinguishes operating revenues and expenses from non-operating items. The college reports as a BTA and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the college's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The operation of the bookstores is not performed by the college.

Management Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The College is exempt from income taxes under Internal Revenue Code Section 115, *Income of States, Municipalities, Etc.*, although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511 (a)(2)(B), *Imposition of Tax on Unrelated Business Income of Charitable, Etc., Organizations*. The College had no unrelated business income tax liability for the year ended August 31, 2011 and 2010.

Reclassifications

Certain 2010 amounts have been reclassified to conform to current year presentation.

3. Authorized Investments

The Board of Trustees of the College has adopted a written investment policy regarding the investments of its funds as defined in the Public Funds Investment Act (Chapter 2256.001 Texas Government Code). The investments of the College are in compliance with the Board of Trustees' investment policy and the Public Funds Investment Act. The College is

authorized to invest in obligations and instruments as follows: (1) obligations of the United States and its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposits and (5) other instruments and obligations authorized by statute.

4. Deposits and Investments

Deposits

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank failure, the College's deposits may not be returned to it. The College's investment policy requires pledging of collateral for all bank balances in excess of Federal Depository Insurance Corporation (FDIC) limits at a minimum of 102% of market value. As of August 31, 2011, all of the College's bank balances of \$10,646,053 were insured and collateralized and not exposed to custodial credit risk.

August 31, 2011 and 2010

Interest risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods can be subjected to increased risk of adverse interest rate changes. In accordance with its investment policy, the College limits its exposure to interest rate risk by structuring its portfolio to provide liquidity for operating funds and maximizing yields for funds not immediately needed. The investment policy limits the maximum maturity on any security to seven years. To the extent possible, the College shall attempt to match its investments with anticipated future cash flow. Unless matched to a specific cash flow, the College shall not directly invest in securities maturing more than three years from the date of purchase.

Credit risks are the risk that the insurer of the debt security will not pay its par value upon maturity. The College's investment policy limits credit risk based on meeting requirements of State law.

Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The College places no limit on the amount the College may invest in any one issuer. At August 31, 2011 and 2010, the College had approximately \$20.3 and \$32.2 million of its investment portfolio in Federal Agency securities, which mature through August 2018.

During fiscal year 2006, a donor remitted shares in a Company to the College to establish an endowment scholarship. The shares had a fair market value of \$474,000 at August 31, 2011. Securities donated to an investing entity for a particular purpose or under terms of use specified by the donor, are not subject to the requirements of the Public Funds Investment Act. The College amended its investment policy to allow, at the Board of Trustees discretion, the College to hold donated equities for endowed scholarships.

11. Employees' Retirement Plans

The State of Texas has joint contributory retirement plans for almost all its employees. One of the primary plans in which the College participates is administered by the Teacher Retirement System of Texas

Teacher Retirement System of Texas

Plan Description. The College contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan. TRS issues a publicly available financial report with required supplementary information which can be obtained from www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) the state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal years 2011 and 2010 and a state contribution rate of 6.644% for fiscal years 2011 and 2010. In certain instances the reporting district is required to make all or a portion of the state's contribution for fiscal year 2011 and 2010.

Optional Retirement Plan

Plan Description. The state has also established an optional retirement program for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The percentages of participant salaries currently contributed by the state and each participant are 6.4% and 6.65%, respectively. The College contributes 2.1 percent for employees who were participating in the optional retirement program prior to September 1, 1995. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program.

The retirement expense to the State for the College was \$2,119,777 and \$1,940,083 for the fiscal years ended August 31, 2011 and 2010, respectively. This amount represents the portion of expended appropriations made by the State Legislature on behalf of the College.

BLINN COLLEGE
Notes to Financial Statements
August 31, 2011 and 2010

The total payroll for all College employees was \$41,492,225 and \$38,621,642 for fiscal years 2011 and 2010, respectively. The total payroll of employees covered by the Teacher Retirement System was \$23,704,074 and \$21,704,406, and the total payroll of employees covered by the Optional Retirement Program was \$11,246,979 and \$10,838,127 for fiscal years 2011 and 2010, respectively.

12. Deferred Compensation Program

The College's employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. This plan is essentially an unfunded promise to pay by the employer to each of the plan participants. At August 31, 2011 and 2010, the College had no employees electing to defer compensation.

13. Post Retirement Health Care and Life Insurance Benefits

In addition to providing pension benefits, the State provides certain health care and life insurance benefits for retired employees. Almost all of the employees may become eligible for those benefits if they reach normal retirement age while working for the State. Those and similar benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during previous year. The State recognizes the cost of providing these benefits by expending the annual insurance premiums. The State's contribution per full-time employee was \$411 to \$854 and \$385 to \$839 per month for the years ended August 31, 2011 and 2010, depending on the coverage elected. The State's contribution totaled \$3,170,880 and \$3,238,897, for the years ended August 31, 2011 and 2010, respectively. The cost of providing those benefits for retirees is not separable from the cost of providing benefits for active employees.

14. Compensated Absences

Non-faculty employees are entitled to compensation vacation days. The amount of days is determined annually, based on their length of employment, as stipulated with official policy adopted by the College. The current policy allows a maximum of six accrued unused vacation days to be carried over; however, the carry over days are not payable upon termination. Any accrued unused days in excess of the carry over days expire at the end of each year. In accordance with the provisions of Statement of Financial Accounting Standards No. 43, *Accounting for Compensated Absences*, no liability is recorded for these non-vesting rights.

Sick leave can be accumulated subject to certain limitations. It is paid to an employee who misses work because of illness. The College does not allow conversion of unpaid sick leave for terminated employees. The College's policy is to recognize the cost of sick leave when paid. The liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

15. Contract and Grant Awards

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2 and Schedule A. Contract and grant awards for which funds are expended, but not collected, are reported as accounts receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the college has not yet performed services are not included in the financial statements.

Tax levied for the years ended August 31, 2011 and 2010 is \$1,413,159 and \$1,382,884, respectively (which includes any penalty and interest assessed if applicable). Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1, of the year following the year in which imposed.

Under GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*, ad valorem taxes are imposed non-exchange revenue. Asset from imposed non-exchange transactions are recorded when the entity has an enforceable legal claim to the assets or when the entity receives resources, whichever comes first. The enforceable legal claim date for ad valorem taxes is the assessment date. The College has recognized all assessed taxes in the current year and recorded a receivable for uncollected taxes.

Tax collections for the year ended August 31, 2011 and 2010 were 97% of the current tax levy. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking fund expenditures.

17. Operating Leases

The College leases facilities related to the Bryan and Sealy Campuses under non-cancelable leases expiring through August 2021, with future minimum payments as of August 31, 2011 as follows:

<u>Fiscal Year</u>	
2012	\$ 1,384,000
2013	1,352,000
2014	1,355,000
2015	1,352,000
2016	1,300,000
2017-2021	7,008,000

Rental expense was approximately \$341,000 and \$204,000 for the years ended August 31, 2011 and 2010, respectively.

The College leases retail space to various tenants expiring through December 2012, for property located on the Bryan Campus. Future minimum rental income, as of August 31, 2011, under the agreements are as follows:

<u>Fiscal Year</u>	
2012	\$ 16,800
2013	4,000

Rental income was approximately \$19,000 and \$16,000 for the years ended August 31, 2011 and 2010, respectively.

18. Contingent Liabilities

The College participates in a number of State and Federally assisted programs. These programs are subject to program compliance audits by the grantors or their representatives. Accordingly, the College's compliance with applicable grant requirements will be finally determined at some future date. The amount, if any, of expenditures which may be disallowed by the grantor agencies cannot be determined at this time, although the College expects such amounts, if any, to be immaterial.

19. Self Insurance

Effective September 1, 2003, the College began participating in a public entity risk pool for workers compensation. The participants of the pool include several other public junior and community colleges. The plan provides coverage to each participant with the College's individual loss fund maximum of \$483,674 and \$497,413 at August 31, 2011 and 2010, respectively, which is based on estimated payroll.

The liability for claims incurred but not reported under the self-insured plan is \$102,427 and \$147,205 as of August 31, 2011 and 2010, respectively, and is included in the accompanying statements of net assets. Future payments for the claims will be paid from the accrued liability.

BLINN COLLEGE
Notes to Financial Statements
August 31, 2011 and 2010

Self-insurance activity for the years ended August 31, 2011 and 2010 was as follows:

Accrued Liability for the Year Ended August 31	Balance of Liability at Beginning of Fiscal Year	Additions	Reductions for Claims Paid	Cumulative Balance of Liability at End of Fiscal Year
2010	\$ 407,713	\$ 147,740	\$ (98,344)	\$ 457,109
2011	457,109	165,007	(146,775)	475,341

20. Postemployment Benefits Other than Pensions

The College contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit postemployment healthcare plan administered by the Employees Retirement System of Texas (ERS). SRHP provides medical benefits to retired employees of participating universities, community colleges and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by State law and may be amended by the Texas Legislature.

ERS issues a publicly available financial report that includes financial statements and required supplementary information for SRHP. That report may be obtained from ERS via their website at <http://www.ers.state.tx.us/>.

Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS board of trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution.

The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS board of trustees sets the employer contribution rate based on the implicit rate subsidy which is actuarially determined in accordance with the parameters of GASB statement 45.

The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

The College's contributions to SRHP for State retirees for the years ended August 31, 2011 and 2010, were \$895,585 and \$829,844, respectively, which amounts were funded from the College's State group insurance appropriation. The College's contributions to SRHP for local retirees for the years ended August 31, 2011 and 2010, were \$196,844 and \$175,389, respectively, which amounts were paid directly by the College.

21. Component Units

Blinn College Foundation, Inc. – Discrete Component Unit

Blinn College Foundation, Inc. (the Foundation) was established as a separate nonprofit organization in 1990, to raise funds to provide student scholarships and assistance in the development and growth of the College. Under GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, the Foundation is a component unit of the College because the College provides financial support to the Foundation and the economic resources received or held by the Foundation are entirely or almost entirely for the benefit of the College.

Accordingly, the Foundation financial statements are included in the College's annual report as a discrete component unit (see table of contents). Complete financial statements of Blinn College Foundation, Inc. can be obtained from the administrative office of the Foundation.

 Total per Schedules of Expenditures of Federal and State Awards	 <u>\$38,136,613</u>	 <u>\$ 1,350,632</u>

2. Significant Accounting Policies Used in Preparing the Schedules

The schedules present the activity of all Federal and State programs of the College for the year ended August 31, 2011. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds which have been expended by the College for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The College has followed all applicable guidelines issued by various entities in the preparation of the schedules.

3. Relationship to Federal and State Financial Reports

Differences between amounts reflected in the financial reports filed with grantor agencies for the programs and in the schedules of expenditures of Federal and State awards are due to different program year ends and accruals that will be reflected in the next report filed with the agencies.

4. Amounts Passed-Through by the College

The following amounts were passed-through to the listed subrecipients by the College. These amounts were from the Carl Perkins Tech-Prep Education program, CFDA 84.243, from the U.S. Department of Education through the Texas Higher Education Coordinating Board.

Board of Trustees
Blinn College
Brenham, Texas

We have audited the financial statements of Blinn College, as of and for the years ended August 31, 2011, and 2010, and have issued our report thereon dated November 11, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws,

regulations, contracts and grant agreements, including the Public Funds Investment Act (Chapter 2256, Texas Government Code), noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Audit Committee, Board of Trustees, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Compliance

We have audited Blinn College's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement*, and the State of Texas Single Audit Circular that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2011. The College's major federal and state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the College's management. Our responsibility is to express an opinion on the College's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and the State of Texas Single Audit Circular. Those standards, OMB Circular A-133 and the State of Texas Single Audit Circular, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the College's compliance with those requirements.

In our opinion, Blinn College complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state

programs for the year ended August 31, 2011. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as Item 2011-1.

Internal Control Over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the College's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the State of Texas Single Audit Circular, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as Item 2011-1. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Blinn College's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Blinn College's responses and, accordingly, we express no opinion on the responses.

III. Federal Awards Findings and Questioned Costs

Significant Deficiency:

2011-1 College Work Study Program – Lack of internal control over calculation of hours worked and payment of timesheets.

Condition: In our testing of Federal Work Study timesheets, we noted hours figured incorrectly on 9 out of 16 students tested, and one student was paid twice for the same timesheet.

Criteria: Review of timesheets is necessary to ensure that students are properly paid each pay period. Proper notation on paid timesheets or verification of prior payments is necessary when multiple timesheets are submitted for payment to prevent duplication.

Cause: Supervisors signed off that the students actually worked the days listed on the timesheet; however, they did not recalculate the number of hours worked. The timesheet was not properly marked as paid or double checked against the prior pay period since multiple timesheets were submitted for payment to prevent duplication.

Effect: The effect of not properly recalculating hours-worked and improper notation of previously paid timesheets, as well as lack of prior payment verification resulted in a net overpayment of \$116.

Recommendation: Hours worked need to be recalculated every pay period and proper notation or additional verification with prior payments is required when multiple timesheets are submitted for payment.

View of Responsible Officials and Planned Corrective Actions: Management will review and recalculate all timesheets and properly cancel timesheets with notation to prevent duplicate payments.
